INITIAL ROUND

Preliminary round
(Pen & Paper mode)

- This round consists of various mineral and rock samples.
- Sample name and the basis of identification must be written.
- The more properties you write, the more marks one gets.

FINAL ROUND

(Pen & Paper mode)

- This round consists of samples of Sedimentary structures and Fossils.
- The name of the sedimentary structure along with the rock type must be written.
- Fossil species and class name needs to be written down.
- Answering extra properties will give you extra marks.
- The top three teams with the highest cumulative scores will win.
