

GEO

PIXELS

DOCUMENTING GEOLOGICAL FEATURES, EARTH PROCESSES, AND FIELD OBSERVATIONS THROUGH PHOTOGRAPHY.

CONTACT-ABHIRAM AS (6282007258)

THEMES

- Photographs must be clearly related to Earth Sciences.
- Subjects may include rocks, minerals, fossils, geological structures, stratigraphy, geomorphological features, landforms, or fieldwork scenes.
- Participants may capture photographs anywhere globally, provided the subject has clear geological relevance.
- Each participant is required to submit **one photograph.**

Prithvi'26

RULES

- All submitted photographs must be original images captured by the participant.
- AI-generated images, internet images, or copyrighted photographs are strictly prohibited.
- Each photograph must include the date of capture and an embedded caption stating the location along with a brief geological description of the subject.
- Photographs must be submitted in **JPG or JPEG** format using the naming format **ParticipantName_CollegeName.jpg**.
- By submitting photographs, participants grant the organizers permission to display and promote selected entries with proper credit.

SUBMISSION & JUDGING

- Photographs must be uploaded through the designated submission portal before the deadline.
- Entries will be evaluated based on geological relevance, creativity and originality, composition and visual impact, and photographic clarity.
- Selected photographs will be displayed during the Prithvi event exhibition.
- The decision of the judging panel will be final.
